

POTATO and CARROT ADVISORY

The drought this summer has had a **catastrophic effect** on potato and carrots crops. Growers have harvested 60% of it's usually yield leading to huge increases in prices.

Vernon Catering wishes to advise that the following prices will be in place for the foreseeable future.

Baker potato **10kg €10.95**

Rooster washed **10kg €9.85**

Peeled potatoes **9kg €10.00**

Peeled chipping potatoes **10kg €12.75**

Diced or sliced potatoes **per kg €1.75**

Chips, all cuts **per kg €1.45**

Expect carrots to be approx. 50% more expensive for whole as well as prepped product.

Availability of crops may be a problem in January and February of 2019 and certain varieties may be unavailable, leading to sourcing from further afield.

We anticipate that the supply issue will soften in 8- or 9-months' time.
